

Get to know your prevention specialist

Deanna Moyer, BA

Meet Child and Adolescent Behavioral Health's Deanna Moyer who is a prevention specialist for Early Childhood Mental Health Consultation and adult resiliency coordinator for Early Head Start (EHS) Center staff.

Deanna, who is a graduate of Waynedale High School, went on to earn her associate's degree in early childhood education (ECE) from Stark State College and a bachelor's degree in social work from the University of Akron.

Deanna said the best part of her job is, "I began in child development and early education as a teacher in 2005, and I love that my career has come full circle - from teaching and supporting children, to now providing education, resources and support to the teachers, parents and ECE leaders."

Hobbies: football and love to take local adventures with my husband and two boys

Favorite book: anything by Stephen King

Favorite movies: *The Princess Bride*

C&A's Prevention program offers a variety of services to the community, schools, preschools, daycares and families to help build resiliency skills to prevent the onset of substance use and mental health disorders. Prevention focuses on helping people develop the knowledge, attitudes, and skills they need to make good choices or change harmful behaviors. Substance use and mental disorders can make daily activities difficult and impair a person's ability to work, interact with family and fulfill other major life functions. Mental illness and substance use disorders are among the leading conditions that cause disability in the United States. In addition, drug and alcohol use can lead to other chronic diseases such as diabetes and heart disease. Preventing substance use disorders and related problems is critical to Americans' mental and physical health.
